INVEST AND PROTECT

SUSTAINABLE FINANCING TO TACKLE AMR

The global threat of AMR is not only a serious cross-border health challenge but also jeopardises the achievement of the Sustainable Development Goals (SDGs). What can the EU do to support Member States' efforts to tackle AMR nationally, regionally and locally? How can the use of EU financial instruments and technical assistance reduce inequalities between and within EU countries and strengthen the implementation of One Health national AMR policies?

08:45-09:15 REGISTRATION

09:15 -09:30 **WELCOME**

Moderator - **Frazer Goodwin**, Human Ecology Consulting

- **Stefan Staicu**, Health Attaché, Permanent Representation of Romania to the EU

ANTIMICROBIAL RESISTANCE

SELECTED RESOURCES BY EPHA

Together with EPHA's diverse network of members and a broad coalition of experts, we seek to develop concrete policy proposals and stimulate political will to change policies and practices in all dimensions of the 'One Health' approach to tackle the root causes of antimicrobial resistance.
