# EU-JAMRAI 2

The second edition of the European Joint Action on Antimicrobial Resistance and Healthcare-Associated Infections, emerges with the ambitious goal of changing the world's approach to Antimicrobial Resistance (AMR) through a One Health perspective.

## AN UNPRECEDENT EFFORT

EU-JAMRAI 2 brings together 30 European countries and more than 120 partners to elevate Europe as a model of best practices, supporting the implementation of concrete One Health measures to tackle AMR.

Setting a **EU framework for Stewardship** in human, animal and environmental health.

Facilitating **state-of-the-art Infection Prevention and Control** measures in member states and associated countries.

Improving **Access to selected AMR-products** for human and veterinarian use.

Fostering an **integrated One Health Surveillance system** on Antimicrobial Resistance.

## A SYMBOL THAT UNITES US ALL

EU-JAMRAI 1 called individuals to action by organizing a design contest to find the first global symbol of antimicrobial resistance. Out of over 600 entries from 44 countries, the winning design by Swedish designer David Ljungberg stood out for its strong message and simple yet powerful shape.

Be a change maker. Wear it proudly!

## THE CONCEPT

**CAPSULES**  
set the theme

**HEARTS**  
tell us we need to care

**BAND-AIDS**  
tell us we need to fix it
